“ I have a ton of memories of you dad. None of them will ever face. If I was gonna pick one it would be really hard. There was one time when I was young we had a ol pig out back we were digging fishing worms to go fishing with and the shovel came out full of ground Hornets. When you turned to run I was right there and all you could do was grab me by the chin as you went by to keep me from getting stung. Or the time you set me in the truck because I was cold and I picked a hole in the dash boy did I pay for that later with my own son. We shared alot of hunting time and fishing through life. I always had to go tear up my vehicles on the weekends and being them home so you could show me how to fix them. Was on the road with me when I found out I was gonna be a dad for the first time ever. I could go on for days about memories of you but in all honesty the best memory of you was you just being there everytime I needed guidance and direction

“ Herbert was my uncle but I will have to save more like a dad when I was very little . He would give me and Pat change to have when little girls , but one day he made the mistake of giving us green money . That's what we called it being so young . Well the next time he tried to give us change I said no we want the green money . Lol . A lot of people don't really get that close relationship with a uncle but I can say I did . I might not of gotten to see him very much since I grew up and had my own kids but I can say I feel like I lost my other parent now . He was a great man and I hate the fact that my kids did not get the opportunity to know him the way I did . He will always be in my heart .
